CoinNET Office

Our office has a total area of 120 m². In our office, we introduce crypto and blockchain technology to people.

The purpose of establishing our office is primarily to grow our audience through the production of news, technical analysis and fundamental analysis content by targeting our YouTube audience. Also, our office aims to be open to the public and address the region by inviting business people/influencers/crypto enthusiasts and students from the region and explaining the blockchain and Web3

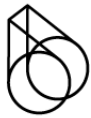

Event Promotion

We, as the CoinNET team, participate in crypto and blockchain events around the world and also organize events in Türkiye ourselves.
